

On-Site Training and BCP Workshops

Prevention is Better than Cure...

From on-site training to our quarterly BCP workshops, Fortress offers high-quality, specialized, comprehensive curriculums aimed at providing the knowledge and confidence needed for management roles and responsibilities as well as the foundation required to develop and maintain an in-house Business Continuity Plan.

On-Site Training

Businesses increasingly recognize the value of on-site training: for new challenges, limited training budgets, new operational requirements, and more. By taking advantage of Fortress On-Site training, you receive instruction that is current and effective;

specific to your area of business and available at your convenience. The results are quick and quantifiable - helping you to successfully increase overall efficiency and effectiveness.

Contact us to discuss your training requirements. We are confident we can meet any need that you may have.

BCP Workshops

Occurring every quarter, Fortress offers group training workshops that focus specifically on the 5 steps of Business Continuity Planning. Each session is approximately 2-3 hours in length and held on consecutive evenings or on weekends making it easier for busy operators to attend.

Contact us or visit our web site for further information and available dates.

Your business may depend on it!
